1. Rumanian army maneuvers were conducted in the SIBIU (R 35/R 20) - AGNITA (R 36/R 71) - SICHISOARA (R 36/R 74) area. Infantry and mountain infantry units, including a mountain infantry unit from BRASOV (R 35/S 30), engaged in the maneuvers.
2. The troops on the maneuvers bivouacked in the open or were billeted in villages, including AGNITA, ALTINA (R 36/R 41), VECERD (R 36/R 41) and IGHISUL VECHEIU (R 36/R 52), the latter three villages being occupied by about four thousand troops.
3. Officers and men avoided talks with the civilian population. The officers were noticeably discontent^{ed} with the bearing, particularly the low discipline, of their troops.
4. Thirty officers of the Rumanian General Staff acted as umpires for the maneuvers. Following a two-day leave after the maneuvers these officers were to participate in other maneuvers in the TARGU MURES (R 36/R 78) area.

Comment:

Information on the maneuvers in the SIBIU area was contained in a previous report, which, however, stated that the maneuvers started on 21 June 1949, with units of all branches of service from Greater Wallachia participating. The maneuvers may have been continued from July to September 1949 with other Rumanian Army units participating. As still other maneuvers were reportedly to be conducted in the TARGU MURES area, the maneuver period of the Rumanian Army has presumably not ended.

This document is hereby regraded to CONFIDENTIAL in accordance with the letter of 16 October 1978 from the Director of Central Intelligence to the Archivist of the United States.
